

The Logitech MX Master 3S is a precision productivity mouse engineered for professionals who demand efficiency and comfort. Its ergonomic design supports prolonged work hours with minimal strain, while an advanced optical sensor provides accurate tracking on nearly any surface—including glass. The MagSpeed electromagnetic scroll wheel enables rapid document navigation with pixel-level control. Customizable buttons and software-defined application profiles accelerate workflows in tools like Photoshop, Excel, and Premiere Pro. Multi-device support allows seamless switching between computers, making it ideal for modern hybrid work environments.
